SEF FORUM

Already for the 14th consecutive year, the SEF is the main and largest event in the field of sustainable energy in Central and Eastern Europe.

In the 2022 the SEF forum will be held at Krakow, Poland

The forum is a unique opportunity to gain insight into financial, legal and technical aspects of construction of renewable energy facilities, as well as supply power to various industrial and commercial facilities.

Among the hot topics – global energy and fuel market transformation; markets of solar, wind, bio and hydrogen energy; energy storage, distributed energy generation; new business models for the niche market development.

SEF 2022 Poland

1st INTERNATIONAL **SUSTAINABLE ENERGY** FORUM AND TRADE SHOW

AMONG THE SPEAKERS:

CHARLOTTE MORTON,
CEO of the World Biogas Association

ANDRIY KONECHENKOV,
Vice President of the World Wind Energy Association (WWEA), Head of the CIS Wind Committee

CYRILLE ARNOULD,
Head of the Global Energy Efficiency Renewable Energy Fund (GEEREF)

ARMAN KASHKINBEKOV,
Head of Sustainable Development, UNDP, Honorary CEO and Member of the Board of Directors of the Kazakhstan Renewable Energy Association

TESTIMONIALS

«In my personal experience and experience of our company, SEF is one of the best events in the renewable energy industry. Our company has a very large number of customers, thanks to SEF. It is a very interesting event not only for manufacturers but also for consumers. It is one of the few events where you can get acquainted with the latest developments and where you can talk directly with manufacturers and suppliers».
Yevhen Prydatko, Jinko Solar

«I am very happy to participate in SEF. We meet a lot of customers here and organized many pieces of activities. The results are very positive and feedback from our customers about SEF is very positive. For my review, SEF is a very successful activity for the PV industry».
Shuangquan He, CEO Suntech Power

«This Forum is very important for everyone. It is not only present yourself, but it is also about meeting other people. And this very important to find some answers for important questions in the market where you work».
Nadezhda Petruchenko, SPP Development

«SEF is a market-forming affair because this event formed the sustainable energy market in Ukraine».
Nikolai Bezuglov, KNESS
